

EZcash 1.2.18 Release Notes: 10/12/2015

This release addressed the following reported issues:

1. Fixed issue with Supervisor Balancing Card OP Codes.

EZcash 1.2.17 Release Notes: 09/25/2015

This release addressed the following reported issues:

2. Cash add feature fixed to wizard.
3. 90 days look back on balancing cycle.

EZcash 1.2.16 Release Notes: 09/04/2015

This release addressed the following reported issues:

1. Balancing Cards
2. Enabling Tickets to be good for 90 days
3. Cash Dispenser to retract money.

EZcash 1.2.15 Release Notes: 10/29/2014

This release addressed the following issues:

1. Small upgrade to address an issue with direct pays to a CDU.

EZcash 1.2.14 Release Notes: 10/1/2014

This release addressed the following reported issues:

1. The reported denoms problem where the database order was used versus the cassette id.
2. The Track 2 barcode mod to address the limited size of the old encoder format was fixed.
3. A problem with a defined rule being applied to only the first bundle in a transaction.
4. If the Dispense Live wasn't running then the Wizard would not run.

EZcash 1.2.12 Release Notes: 7/18/2014

This release addressed the following reported issues:

1. The replenish wizard didn't take the ATM/CUU out of service. The operator had to tell the machine to go down manually.
2. Because of a NCR barcode driver bug - some barcodes cannot be read. As such the EZcash service would hang.
3. Authorizing rule changes were not being saved.
